Five years into the 2030 Agenda, what are experiences we have so far on NHRIs' role for the Sustainable Development Goals? What can NHRIs do to realize the decade of action and delivery for sustainable development? This interactive open session scheduled during the 2020 Tri-Partite Partnership Meeting will exchange good practices, examples, and lesson learned from key actors and partners to support NHRIs as accelerators for the SDGs. You will hear from speakers latest developments in relations to NHRIs as accelerators for the SDGs and on their important role in contributing to VNR processes and to human rights mechanisms' outputs.

We would like to have **YOU** to this interactive session and also hear **YOUR EXPERIENCE!**
